30
YEARS
OF EXCELLENCE

**DUBAI LONDON CLINIC
& SPECIALITY HOSPITAL**

DUBAI LONDON CLINIC & SPECIALITY HOSPITAL

As one of the first and most established healthcare providers in the UAE, Dubai London Clinic is a name that stands for three important things to its patients: Excellence, Innovation and Compassion.

Almost 33 years ago, the clinic was founded as a private medical practice with a clear vision: to offer the latest medical treatments in state-of-the-art facilities, while providing a truly patient-focused environment.

*Over three decades
of excellence,
innovation and
compassion.*

Our main hospital branch is fully accredited by two of the top global accrediting bodies – the Australian Council on Healthcare Standards (ACHS) and the revered, US-based Joint Commission International Accreditation (JCIA). Our other branches are also accredited by ACHS.

With a network of clinics right across the Emirate of Dubai, Dubai London Clinic is also planning to open an impressive new general hospital in 2021.

DERMATOLOGY / AESTHETIC MEDICINE

Dermatology is a speciality dealing with issues of skin, nail and hair and has both a medical and surgical aspect.

Dubai London Clinic has a renowned Dermatology Department with a dedicated team of skin doctors and specialists ready to deal with a range of diseases or cosmetic issues. Common problems include Acne, Scars, Warts, Dermatitis, Melasma, Eczema and Cold Sores – but the department diagnoses and treats anything causing patients concern in this area.

Other treatments include those for nails and toenails, such as Fungal Infections, Ingrown Toenails and Inflammation. Hair loss and alopecia issues also come under the department's care. For concerned parents, we also cover paediatric dermatology and deal regularly with issues such as Infant Skin Diseases and Birthmark Removals.

For a boost of extra confidence, our talented team is pleased to offer the latest Aesthetic treatments such as Botox, Fillers, Chemical Peelings, Skin Rejuvenation, Mesotherapy, Skin Lifts and Sag Prevention – to name just a few.

HAIR TRANSPLANT

There are several factors that contribute to hair loss in both men and women. At Dubai London Clinic we are passionate about providing the best advice and highest standard of care to people considering hair transplant options.

Indeed, we are one of only a few clinics in the world offering Hair Stem Cell Transplantation – a revolutionary treatment devised by pioneer Dr. Coen Gho – which offers men and women of every age and colouring the chance to rediscover natural looking hair. Our team of highly experienced, certified doctors and surgeons can truly work aesthetic wonders, restoring personal confidence and a zest for life.

PLASTIC SURGERY

Enhancing your appearance not only boosts overall confidence, it can even help you achieve your life goals.

The Plastic Surgery Department at Dubai London Clinic offers an extensive range of non-surgical as well as surgical procedures, ranging widely from Liposuction and Breast Augmentation to Hair Loss Treatment, Rhinoplasty and Facial Surgery. Our highly experienced and empathetic Plastic Surgeons will only ever suggest achievable goals and ensure the patient is always fully informed and at ease.

GYNAECOLOGY

Dubai London Clinic is committed to providing women with the best gynaecological care possible. Led by a team of dedicated specialists, the Gynaecology Department diagnoses and treats a range of related issues. Services include Infertility Treatment, Colposcopy, Reproductive Endocrinology – and we are noted specialists in Laparoscopic surgery. The department also provides focused obstetric services such as Preconception Counselling, Private Pregnancy Care, Caesarean Sections and Postnatal Care.

We are also leaders in Aesthetic Gynaecology and have an in-house specialist focused on requirements such as Vaginal Rejuvenation via Stem Cell and Laser Treatment and Lifting of Labia Majora without surgery. To ensure complete personal comfort, we have a team of experienced female Gynaecologists.

UROLOGY

The Urology Department of Dubai London Clinic offers comprehensive and advanced clinical and surgical care for diseases related to the urinary tract. Our experienced Urologists also deal with health conditions related to the male reproductive organs, including prostate, testes, epididymis and other related issues. The Physicians use the most advanced methods involving both open surgeries and non-surgical, minimally invasive treatment. Our caring team has a high-level of medical knowledge in the management of ailments such as Kidney Stones, Urinary Incontinence and various types of cancer.

PHYSIOTHERAPY

Although Physiotherapy is frequently associated with sports injuries, in fact it can be of benefit at any time in your life. Whether you are preparing for childbirth, recovering from surgery, or simply have joint pain, the experienced Physiotherapists at Dubai London Clinic can assist. Offering a variety of services dealing with a wide range of Musculoskeletal issues, our team is here to help you maintain the ability to move and enjoy an active lifestyle.

ORTHOPAEDIC

Orthopaedics is a medical specialisation that deals with the prevention and correction of injuries and deformities that affect the muscles or bones. Dubai London Clinic boasts a dedicated Orthopaedic Department that is committed to providing comprehensive care in this area to children, adolescents and adults. Our team of Specialist Orthopaedists treat everything from Sport Injuries and Bone Fractures to Scoliosis and Cerebral Palsy. We are committed to helping patients regain their physical strength and going about their day-to-day life with ease.

GENERAL PRACTICE & FAMILY MEDICINE

Family Medicine – also known as Family or General Practice – is an important community specialty devoted to the health and wellbeing of people of all ages. It is truly the foundation on which all medical practice is built. The General Practitioners (GPs) at Dubai London Clinic offer a compassionate, comprehensive primary care service for all our patients and will listen closely while an individual explains their specific problem. The GP will then narrow down diagnostic possibilities and discuss the best treatment options.

PAEDIATRIC

As a parent, it is essential to provide your child with access to the services of an experienced Paediatrician. Young ones are much more susceptible to infections and diseases than adults, therefore it is important for them to undergo regular check-ups with a Paediatric doctor. At Dubai London Clinic, our highly experienced and caring paediatric support team can assess your child's healthcare needs and offer a wide range of services.

EAR, NOSE & THROAT (ENT)

Ear, Nose and Throat disorders can cause a great deal of physical discomfort. The team of experienced ENT doctors and support staff at Dubai London Clinic are on hand to provide relief, whether it be Sinus Problems, Ear Infections, Vocal Cord Disorders or Thyroid Gland Disorders. Our specialists will diagnose and recommend the best course of treatment to cure your condition. We take the utmost care in ensuring patient comfort and our doctors practice the very latest techniques to get optimal results.

DENTAL

Dubai London Clinic has one of the leading dental practices in the region, offering customised solutions and using the latest products and procedures. Its top team of dentists includes General Dentists, a Specialist Oral and Maxillofacial Surgeon, a Specialist Orthodontist and a Dentofacial Orthopaedician.

These skilled professionals work in our main dental clinic and in our other facilities across Dubai, providing everything from Cosmetic Dentistry and Dental Implants to Orthodontics and Denture Fixing – all to an exceptionally high standard. The General Dentistry service focuses on diagnosis and treatment of common oral ailments and provides Teeth Cleaning and Filling, Dental Check-ups, Cap Placement, Gum Care and Root Canal Treatment. We also offer premium ‘Smile Makeover’ aesthetic dental services that include Veneers, Bridges, Crowns and Inlays & Onlays.

At Dubai London Clinic we truly believe in providing quality healthcare to everyone, therefore all our dental treatment options are set at an affordable price.

IMMIGRATION MEDICAL CARE

In Dubai London Clinic- our doctors, radiologists and the laboratory are designated providers for immigration medical examinations requested by embassies. This service is provided to the New Zealand, Canadian and Australian embassies.

MEDICAL TOURISM

Dubai already attracts millions of sun-seeking tourists each year but is now also a thriving international hub for medical tourism. This is due to the vast range of services and procedures offered and the fantastic high-tech facilities available – all at an attractive price.

The reason why Dubai Medical Tourism has increased so rapidly is rising western healthcare costs and the lack of insurance coverage for certain procedures. It means people are willing to travel to the Emirate to seek medical, dental and surgical care that is either not available or too expensive at home.

With comprehensive healthcare packages for international patients, at Dubai London Clinic we are proud to welcome these kinds of visitors every week.

Typical services requested include Advanced Gynaecological Minimal Access Surgery, Orthopaedics, Cardiology, Obesity Surgery, General & Laparoscopic Surgeries, Plastic & Cosmetic Surgery, Cochlear Implants – and much more.

Even before a patient arrives in the UAE, our dedicated International Team can make all the necessary arrangements such as visa assistance, hotel bookings, consultation and/or admission, and airport transfers. We are committed to ensuring the treatment period here is both comfortable and stress free.

Dubai London Clinic also offers these specialist departments:

- Internal Medicine
- Cardiology
- Endocrinology
- Podiatry
- Ophthalmology
- Laser Services
- General Surgery / Gastroenterology
- Advanced Gynaecological Laparoscopic Surgery
- Wellbeing Medicine
- Anti-Aging Medicine
- Travel Medicine
