

Dubai London Clinic offers a variety of advance skin rejuvenation laser treatments tailor made to suit different skin types and conditions.

**Fotona 4D** – Non-surgical facelifting procedure for skin rejuvenation and glow.

**BBL** - Also known as photofacial procedure, treats skin conditions such as rosacea, spider veins, and acne, as well as to reduce the appearance of sun damage, fine lines, and wrinkles, and to even out skin tone and texture.

**PICO** – Laser treatment for skin conditions and imperfections such as discoloration, melasma, scarring, dark spots, and tattoo removal.

**StarWalker** – Laser treatment for all common pigmented lesions and a broad spectrum of tattoo colours, and offers the ability to provide additional aesthetic treatments such as skin rejuvenation, acne treatment, vascular lesion removal and laser hair removal.

*Please note: The above listed treatments are only available at the Dubai London Clinic, Al Thanya Centre.*

## Clinical Dermatology Conditions Treated

### Skin

Diagnosis and treatment of all skin-related concerns like psoriasis, lichen planus, atopic dermatitis, contact dermatitis, eczema, and various skin infections, to name a few. Management of acne and acne scars.

### Skin Cancers

Diagnosis of melanoma and other non-melanoma skin cancers like basal cell carcinomas, squamous cell carcinomas, and more.

### Hair & Nails

Management of different kinds of hair disorders like dandruff, hair fall, hair/hair root infections, alopecia, androgenetic alopecia, alopecia areata, and more. Diagnosis and treatment for nail disorders.

### Personal Health & Wellness

Diagnosis, screening, and treatment of sexually transmitted infections. Treatment of genital warts with different treatment modalities.

## Clinical Dermatology Treatments

**Diagnosis and management of skin, nail, and hair conditions** such as, but not limited to, bacterial, fungal, and viral skin infections, eczema, allergic conditions such as allergic contact dermatitis, urticaria, psoriasis, autoimmune diseases, warts, alopecia, hair loss, acne, rosacea, pigmentary diseases, and paediatric dermatological conditions, and others.

**Skin cancer screening** by Dermatoscopy examination and biopsy of lesions when indicated (Mole check, diagnosis of BCC, SCC, precancerous conditions).

### Ear piercings

**Radio Frequency (RF):** An excellent less-invasive procedure to treat benign skin conditions like skin tags, warts, and other epidermal growths.

Facial Contouring

Facial Rejuvenation

Pigmentation

Stretch Marks

Under-eye Bags

Dark Circles

## Aesthetic Dermatology Treatments

### FACE, SKIN & HAIR

**Botox** injections for dynamic lines on the face, hyperhidrosis, and migraines. Botox can also help relax the jaw muscles in the habit of clenching.

**Filler** injections for loss of volume in the face, facial contouring, and refreshing the face. Skin Boosters and Prophilin injections for skin rejuvenation.

**PRP (Platelet-rich Plasma):** Improves skin tone and texture; aids in the removal of wrinkles and acne scars. This treatment is recommended for facial rejuvenation, scars, stretch marks, and hair loss.

**Mesotherapy:** Customised vitamins are injected into the skin to nourish the skin and hair. It also prevents hair loss and gives a very good glow to the skin.

**Microneedling with dermarollers or dermapen:** Stimulates the production of natural elastin and collagen that reduces wrinkles and fine lines. You'll have younger looking skin with minimum downtime. It can help treat fine lines, scars, stretch marks, as well as help maintain the skin to prevent facial wrinkles if started at the right age. It can deliver best results when combined with PRP treatments.

**Chemical Peeling:** An anti-aging treatment to correct skin irregularities in texture, such as fine lines, colour, pigmentation, and spots caused by sun damage.

**Q-Switched ND Yag Laser:** Advanced laser treatment for skin pigmentation, acne, rejuvenation, nail fungal infection, tattoo removal, and other conditions.

*Please note: Q-Switched laser treatments will only be available at Dubai London Clinic, Nakheel Mall, Palm Jumeirah (Lower Ground Level).*

### LASER HAIR REDUCTION

Get away with painful and messy hair removal techniques like waxing, shaving and threading.

**Laser hair reduction** for men and women of all hair and skin types. Whether you have light hair and fair skin or have darker skin and thicker hair, our beauty therapist can help determine which laser treatment is right for you.

*Please note: The above listed treatments are only available at the Dubai London Clinic, Dubai Festival City Mall.*
